

COMPANY BACKGROUND

HEALTH PRODUCTS & SUPPLEMENTS SUPPLIER

ABOUT US

STARTED WITH A DREAM AND GROWN THROUGH EXCELLENCE

Invest in Health (Pty) Limited has been in business since April 2018, however during this short period we have built up a track record and brand to be extremely proud of.

The Company has built close relationships with all its clients and distributors and seeks only to nurture and grow such relationships. The Company currently attends to the importation and distribution of products from Kirkman and LivonLabs and has a full e-commerce website whereby the public can purchase high quality products from aforementioned suppliers as well as fantastic quality products from local suppliers.

BACKGROUND

Invest in Health was sparked as an initiative to be part of something that we feel passionate about.

The two main product suppliers, that were the spur of this business, are based in the USA, namely Kirkman and LivonLabs. Both suppliers pride themselves in supplying high quality, superior grade, non-gmo, allergen-free clean products. These are fantastic quality supplements and Invest in Health is exhilarated to be able to supply them to the South African market!

Invest in Health is an online business that supplies high quality health supplements and natural products. Our company first started in April 2018 with only our two main International Suppliers. We have since expanded with regards to suppliers and we now have a vast number of suppliers and numerous different products as offered on our website.

OUR VISION

To offer specific natural health products and supplements of an extremely high quality to all clients by means of our insight, research and passion developed through years of experience together with the support of local manufactured products.

OUR MISSION

Invest in Health is 100% committed to our promise to strive to only supplying elite quality, pure and proven products to assist the body in times of need.

OUR VALUES

Creativity

Integrity

Professionalism

Teamwork

WHY SA SHOWJUMPING INVOLVEMENT?

Both directors have been riding since a very young age and were privileged to be able to ride competitively in both Children and Junior grades. After school, “live happened” which included university studies, marriage and babies, where an unfortunate long riding gap resulted. Both directors are fortunately happy to finally be actively involved in competitive riding again. We have felt the need to “give back” to a sport we have loved for many years and decided that we would want to become actively involved in Showjumping sponsorship.

The mindful horseman knows that your performance is strongly affected by your physical health. It is therefore of utmost importance to the equestrian athlete to be as healthy as possible. We have numerous supplements and vitamins that will assist the body to perform at optimum performance, as well as assist with the body’s recovery after competition times. All our products are natural and of extremely high quality, free from contaminants, fillers and harmful substances. The body will merely be boosted naturally, helping it to perform as required, without a range of possible dangerous side effects.

We also stock a wide range of organic and natural body products, including amongst others, sun products and deodorants, without the harmful chemicals that are present in some storebought products.

We are excited about this new opportunity and hope to become recognized in the riding community and in a sport that so desperately require all the sponsorship it can get.

OUR FOUNDING TEAM

Judy Smit

Director

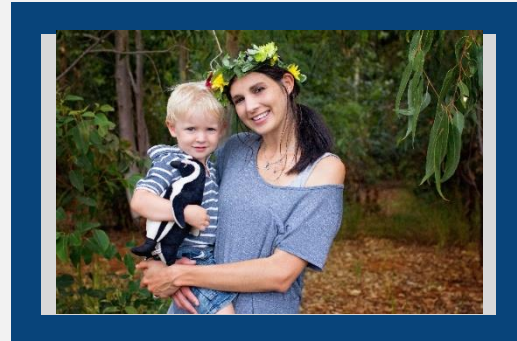

Judy Smit is a qualified Industrial Engineer. She studied at the University of Pretoria and started working as an Engineer in 2009.

She lives in Pretoria East with her husband and 3 children (a boy born in 2012, and two girls born in 2014 and 2017).

Her first child was born in April 2012. Being pregnant and wanting the absolute best for your unborn baby, was what brought to life the gradual mind shift to an “awakened” state and being much more sensitive to diet, the environment and medication. A much healthier and natural ways of living was born with this baby which included a healthy diet and quality natural and homeopathic medication as well as medical care providers.

Judy is extremely passionate about anything natural, including birth, breastfeeding, cloth nappies, baby wearing, natural healing, alternative thinking etc. She is fascinated about the body’s amazing abilities to heal itself and have a need to learn more each day.

She is very excited about the feature of this venture and delighted to be working with her sister which is also her only sibling and best friend!

Christine Gerber

Director

Christine Gerber is a qualified attorney having attained her BCom Law and LLB degrees at the University of Pretoria. She was admitted as an attorney in 2010 and Notary Public in 2013 and was practising as an attorney and Director at a firm based in Pretoria East until end of 2019.

She is married to her amazing supportive husband, Riaan Gerber, and lives in Centurion. She has two boys, born 2015 and 2019.

Christine developed a new passion for healthy living and natural products when she became a mom and was truly inspired by her sister and the way whereby her sister was raising her kids. For Christine it is a huge honour to call her sister her business partner and her best friend.

She is furthermore avidly interested in adventure and absolutely loves scuba diving!

She is passionate about the new business and believes in ethical professional business practices.
